

The right blend for Print

QUALITY | COMMITMENT | PERFECTION

Welcome to Akshara Offset

History

Akshara Offset started as the first DTP unit in Kerala in 1985. It soon became the undisputed typesetting and page layout specialists. With this background Akshara ventured into offset printing in 1995. In 1999 a full fledged Pre press consisting of an image setter and a high resolution digital scanner was set up. This was the first pre press set up in Thiruvananthapuram.

In 2005 the printing and post press facilities were expanded by adding 4 colour and 2 colour presses along with a host of post press machinery. Now Akshara Offset is fully equipped to execute various types of commercial printing in-house.

Professional Printing Solutions

Akshara Press offers the latest technology in printing with the help of cutting edge printing presses and highly trained professionals. All these are guaranteed to give you tailor-made solutions that suit your needs perfectly. Our production staff sees to it that your projects are completed on time and delivered to you on time. Once you work is entrusted to Akshara, rest assured, it will be taken care of with complete professionalism and sincerity.

At Akshara Press, You get the best deal

Akshara Press is synonymous with quality in printing and our professionals use the latest equipment and software to produce the best results. Our commitment to setting new standards has been widely appreciated, as it adds value to all your work.

Why - Akshara

Starting off as the first DTP Centre in Kerala way back in 1985, today Akshara has grown into a trend sector in the printing industry. From state-of-the-art press equipments to the latest four colour printing machines, we have the infrastructure for maximum quality and efficiency. We give track of the constantly evolving world of printing technology and are quick to adapt the latest in the industry. Today, at Akshara, we have the pre press and the post press facilities under one roof. The skills of our personnel are regularly upgraded through frequent training programmes and our team is committed to delivering you the best. We possess all the in house requirements for high quality commercial printing in Pre-press, Press and Post press segments.
